

Special Occasion! **UNUSED** Dryer for pharmaceutical, fine chemical or food industry with special price

Type of construction: AVA – Conical dryer type HVW - VT2500. Incl. vapour filter, discharge: ball segment valve, control cabinet with S7 and EX-panel

Field of application: Pharma, production of API, chemistry, food

Technical data:

Manufactured: 2008, new, unused!
Gross volume: 2500 Liters
Net capacity max: 2000 Liters (depending on product and recipe)
Design: according to pharmaceutical GMP standards
Dryer and filter Designed for CIP.
With IQ/OQ documentation

ATEX zone 1
Material product wetted parts in 1.4404 = AISI 316 L
Drive: 22 kW, 400V, 50Hz, EEx de CII T4
Agitator: Mitrava double helix with mechanical seal
Operating pressure interior 0 to 1.4 bar abs
Operating pressure double jacket max. 4 bar abs
Design temperature -20 to +150 °C
Vapour filter: textile filter socks over metallic support cages, heated hoses, CIP, external nitrogen reservoir.
filter area: approx. 2 m²

Very extensive equipment: 2 PT100 temperature probes, two pressure sensors, sampling valve, inspection window with wiper and lighting
